

Jeffrey R. Miller	I've lived in Indy for 19 years under four administrations, both Democratic and Republican. The only way to change the status quo is two things: 1) Political capital. Leadership from both sides of the aisle. 2) Financial capital. Money. It all comes down to securing the funds to make a difference, not just survive.
Clarke Kahlo	Partner with Indianapolis Colts to create a carnival (Susan Blair's suggestion) at the Training Facility on the 32 acres the city gave to the Colts in the mid-80s. Also, save "canal park!"
Suze Stamm	Please, what has happened to the Stamm Park -- five years ago -- to be nature park and planned -- Don Miller -- wildflowers -- paths -- no expense
Jamie Mehringer	
Wendy Mehringer	Interested in hearing public comment as it relates to private support of Indy Parks.
Karen Jameson	
Ruth Hayes	Prepared statement for Nora-Northside Community Council, Inc. (please see attached)
Paul Arlinghaus	1) Engage statewide outdoor rec groups, 2) help friends and advocacy groups get together to partner on projects, 3) Support fundraising and grants, help with mechanics of fund raising, grand seminars; 4) Communication with advocates is critical.
Dottie Heseman	Does not want to receive the newsletter but is happy to get the notes from this evening's forum
David Bash	What can be done to reduce crime at Skiles Test Nature Park i.e. car break-ins and illegal sexual activity? Can the Friends of Skiles Test Nature Park work with Indy Parks to find funds to further develop the park?
Ruth A. Linsmith	
Karen Hamilton	Concerned about the future of Indy Parks and city-owned golf courses. Most concerned about the future of the Mono Trail -- specifically 86th and the Monon in Nora. P.S. My family loves and visits Holliday Park often. Thank you for hosting!
Anonymous	An anonymous participant wanted to say the Ranger presence was uncalled for and they stood outside the door and talked the whole time, making it hard to hear. He said they must have been raised by wolves, other than that he loved the forum.
